28.	West Bengal	State Governemnt has reported 105 cases of encroachment.
29.	Andaman & Nicobar	Nil
30.	Chandigarh	Chandigarh Wakf Board has informed about one encroachment so far.
31.	Dadra & Nagar Haveli	Nil
32.	Daman & Diu	Nil
33.	Delhi	454 wakf properties have been encroached.
34.	Lakshadweep	Nil
35.	Pondicherry	8 cases of encroachment have been reported.

Energy generation by new and renewable energy sources

4201. SHRI MAHMOOD A. MADANI:
SHRI SANTOSH BAGRODIA:

Will the Minister of NEW AND RENEWABLE ENERGY be pleased to state:

(a) by when Government intend to have at least 10 per cent energy generation by new and renewable; and

(b) the steps being taken by Government in this respect?

THE MINISTER OF STATE OF THE MINISTRY OF NEW AND RENEWABLE ENERGY (SHRI VILAS MUTTEMWAR): (a) Grid-interactive renewable power installed capacity in the country at the end of the 10th Plan, i.e., upto 31.3.2007 was 10,250 MW or about 7.75 per cent of the then total installed capacity of around 1,32,329 MW, corresponding to a share of around 3 per cent in the electricity generation mix. Further, grid-interactive renewable power capacity addition of 14,000 MW has been proposed during the 11th Plan. Thus, by the end of the 11th Plan grid-interactive renewable power installed capacity is likely to cross 24,000 MW or about 12 per cent of the then likely total installed capacity of around 2,00,000 MW, corresponding to a share of around 5 per cent in the electricity generation mix. The share of grid-interactive renewable power of around 5 per cent in the electricity generation mix is likely to be maintained in the medium term, through 2032.

(b) Renewable power is mainly private investment driven. To encourage its deployment fiscal and financial incentives are being provided that include ,capital/interest subsidy, accelerated depreciation, concessional duties and relief from income-tax on profits made from sale of renewable power, apart from preferential tariffs for grid-interactive power being given in most potential States. These apart, publicity and awareness on the usefulness of renewable energy systems/devices are being created through print, postal and electronic media besides organization of special events like the Rajiv Gandhi Akshay Urja Diwas. In addition, District-level Advisory Committees have been constituted in states to facilitate promotion and effective coordination of renewable energy schemes/programmes.

Pending hydro electric power projects

4202. SHRI SANJAY RAUT: Will the Minister of NEW AND RENEWABLE ENERGY be pleased to state:

(a) the number of large and small hydro electric power projects pending with his Ministry and the number of projects sanctioned during the last two years, particularly in Maharashtra;

(b) the details of support and co-operation Government are giving to the entrepreneurs for successful implementation of small and large hydro projects in the country; and

(c) whether Government have received any complaints; if so, what are the major objections Government are going to address in the coming days so that targets fixed by Government can be achieved till 2012?

THE MINISTER OF STATE OF THE MINISTRY OF NEW AND RENEWABLE ENERGY (SHRI VILAS MUTTEMWAR): (a) This Ministry has been giving Central Financial Assistance (CFA) for setting up hydro power projects upto 25 MW station capacity. Proposals for the grant of CFA are received on a regular basis. At times, these proposals are found to be incomplete or not in line with the provisions of the schemes. Complete proposals are considered and approved subject to budget provisions. During the last two years, i.e., 2005-06 and 2006-07, the Ministry has given CFA for (i) detailed project report preparation for 93 potential small hydro power (SHP) projects, (ii) 38 new SHP projects, (iii) 57 ongoing SHP projects, including 2 in Maharashtra, and (iv) 875 watermills.
